VINCI Construction UK Awarded £8.4 Million Contract to Construct Office Building at Daresbury Science and Innovation Campus

VINCI Construction UK has been awarded an £8.4 million contract by the Northwest Regional Development Agency to design and construct a three-storey office building at Daresbury Science and Innovation Campus in Warrington, Cheshire.

Formed as part of a government initiative to maximise the effects of public investment on business-science collaborations, there are nearly 100 companies based in the Daresbury Innovation Centre and approximately 400 staff at the Daresbury Laboratory. Together they support the work of thousands of scientists and engineers around the world.
