Norwest Holst Awarded £13 Million Contract to Design & Build MSCP at Birmingham International Airport

The West Midlands region of Norwest Holst's Building division has been awarded a £13 million contract to design and construct an extension to Multi-storey Car Park 3 at Birmingham International Airport which will provide an additional 1577 parking spaces.

This contract forms phase 2 of this particular Multi-storey Car Park. Phase 1 was completed by Norwest Holst in 2001 for a contract value of £10 million and comprised an eight level structure providing 1800 car parking spaces.

The 56 week contract is due to begin in June.
